PURe® windows

Sustainable and built to last

Double or triple glazing options available, up to 57mm, to maximise thermal and acoustic performance

System dependent

Fully compliant with **Part L** and **Part Q**

Benefiting from a thermal barrier made from expanded polyurethane foam, tried and tested and used in the construction industry for many years

PURe®
WINDOW SYSTEMS

The PURe® range takes our already high-performance aluminium windows to the next level, offering even greater energy-efficiency and protection from the elements.

The cutting-edge patented system is the first on the UK market to benefit from an enhanced thermal barrier manufactured from expanded polyurethane foam (PUR). This material is traditionally used in insulation products as it is so effective in helping to retain heat.

- Cutting edge patented system
- Innovative design allows ultra-low U-values to be achieved
- Available in an almost unlimited range of colours and finishes inside and out
- Available in a range of styles and configurations

PURe® windows: design options

Enhance the way your home looks and feels with PURe®- our most thermally efficient aluminium window system.

Available in a variety of design options, the patented design combines a sleek aluminium frame with a high-performance thermal barrier created from expanded polyurethane foam (PUR). By helping to cut energy costs and create comfortable living spaces all year long, our PURe® windows are ideally suited for both new build and renovation projects.

- The perfect partner to our range of PURe® aluminium doors
- Available with both double and triple-glazing
- Available in an almost limitless range of colours and finishes
- Fully weather and security tested
- Durable and easy to maintain
- Exceptional thermal and acoustic performance

PURe® Casement

Traditional top-hung window

Also available in a side hung option

Our classic PURe® casement windows can be either side hung or top hung to create an awning window. Open out casement windows are particularly useful over sinks, worktops or appliances where it's important to keep the area clear.

PURe®
WINDOW SYSTEMS

PURe® Tilt and Turn
Practical solution for controlled ventilation

The PURe® Tilt and Turn window can open inwards from the top of the sash or inwards from the side. This dual opening design gives safe access for cleaning and controlled ventilation.

PURe® Overswing
Modern top-hung window with dual functionality

The PURe® Overswing top-hung window can be opened for ventilation or fully reversed to allow the outside of the window to be cleaned from the inside.

PURe® Parallel Push
Hinged on all sides for safe ventilation

The PURe® Parallel Push window has hinges on all sides of the frame. When opened, it remains parallel to the wall for safer ventilation. They are particularly suitable for high rise buildings.

Typical Sizes:
Casement: **1500mm x 1500mm**
Overswing: **1500mm x 1738mm**
Parallel: **1500mm x 2400mm**
Tilt & Turn: **1500mm x 2400mm**

Available in double or triple glazing **up to 57mm**
