comar 7P.i LS+

high performance lift/slide doors

comar

Now it's your turn to lift and slide your product range. Innovative lift and slide gearing provides smooth operation for doors up to 12 metres wide and 3 metres high. From one system Comar 7P.i LS+ provides delivered solutions, for the summer months maximise the opening space with the three-track slider, whilst in the winter the lowest U-values keep out the cold.

Innovation comes from Comar 7P.i LS+ offering unique solutions from one system, which means that with the same profiles you can provide lift slide or straight rolling gear, standard or slim interlock, enhanced performance with the inclusion of thermal foam and double or triple track configurations.
